KESAVAN R

Full Stack Developer | React.js | Next.js | Express.js | AWS

Chennai, India | +91 83009 76629 | rkesav786@gmail.com | linkedin.com/in/kesavan-r | www.kesavan.website

PROFESSIONAL SUMMARY

Full Stack Developer with around 2 years of experience engineering responsive, high-performance web applications, admin portals, and desktop tools using React.js, Next.js, Express.js, and AWS. Experienced in building modular user interfaces, developing backend REST APIs with MongoDB, configuring role-based access control, and integrating D3.js analytics and secure payment gateways. Skilled in microfrontend architecture, video streaming, and cloud deployments with Docker.

TECHNICAL SKILLS

Frontend Core: React.js, Next.js, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap

State & Data Fetching: Redux Toolkit, TanStack Query

Backend & APIs: Express.js, REST APIs, Node.js, MongoDB, Postman

Payment Gateways: Razorpay, Stripe

Cloud & Hosting: AWS, ECR, Lambda, CloudFront, Route 53, S3, ACM, Docker, GitHub Actions, Vercel, Hostinger

Architecture & Media: Electron.js, Microfrontend Architecture, Webpack Module Federation, HLS.js, D3.js, Git, Vite, Figma

PROFESSIONAL EXPERIENCE

Full Stack Developer **March 2025 – Present**

Sumisa Technologies, Perambalur, Tamil Nadu

- Built responsive client-facing interfaces for a Real Estate Property Platform using Next.js and Tailwind CSS to streamline property discovery and tenant onboarding.
- Developed an administrative management portal in React.js, implementing Express.js RESTful CRUD endpoints and MongoDB to manage property records and user tiers.
- Engineered a Student Management System desktop application using Electron.js and React.js to streamline local administrative records and student tracking.
- Integrated Razorpay payment workflows on Sumisa Technologies corporate platform to handle secure customer billing, while optimizing client caching using TanStack Query and Redux Toolkit.

React Developer Intern **August 2024 – December 2024**

HandBuiltApps, Sivakasi, Tamil Nadu

- Built interactive, responsive UI components for the Konekt business networking platform and admin portal using React.js and Tailwind CSS.
- Integrated Stripe payment checkout workflows in sandbox test environments for the Chalke Festival event ticketing web platform to validate transaction flows.
- Created modular, reusable UI components with React Hooks, resolved cross-browser rendering bugs, and improved Core Web Vitals across client web pages.

KEY PROJECTS

Cloud-Native Portfolio Infrastructure **Technologies: React.js, Docker, AWS, Hostinger**

- Built personal developer portfolio in React.js, containerized the application with Docker, and registered images to Amazon ECR.
- Deployed serverless frontend on AWS Lambda with Function URLs, distributed globally via CloudFront CDN and custom SSL via ACM.
- Configured DNS routing by creating Route 53 hosted zones and integrating custom nameservers on Hostinger.

Adaptive Video Streaming Platform **Technologies: Next.js, React.js, HLS.js, AWS S3, CloudFront**

- Built a video player application in Next.js using HLS.js for seamless adaptive bitrate media playback.
- Integrated custom playback controls, dynamic buffer management, and low-latency edge distribution via AWS S3 and CloudFront CDN.

Enterprise Microfrontend Architecture **Technologies: React.js, Webpack Module Federation, Tailwind CSS**

- Implemented decoupled microfrontends with Webpack Module Federation to allow independent module development and deployments.
- Configured shared dependency caching across remote containers to minimize duplicate asset bundle payloads.

EDUCATION & CERTIFICATIONS

Bachelor of Engineering in Computer Science and Engineering **2019 – 2023**

SA College of Engineering, Chennai, Tamil Nadu | CGPA: 8.0 / 10.0

MERN Stack Development Certification — Live Wire Institute **2023 – 2024**

Languages: English — Professional, Tamil — Native
